Reference: Lord-Shope RD/RA Monthly Progress Report

Dear Mr. Turner:

Lord is hereby submitting five copies of the monthly progress report for February 1994.

The following work was conducted during this period:

REMEDIAL DESIGN/REMEDIAL ACTION

USEPA has advised that comments will be issued on the RD in the near future. Comments will be informational, not directional. Once comments have been incorporated, USEPA will approve the RD. The RD was well received by USEPA.

MISCELLANEOUS:

The monthly inspection was performed and the site is in good condition.

The Fall 1993 Monitoring and Residential sample results were submitted to USEPA during this interim.

As reported last month, Lord has now received a response from Over Lake regarding our offer for a proposed agreement for access during the construction phase of the Remedial Action. Over Lake did not respond directly to our access offer, but Over Lake did make a series of proposals for settlement of the claim as well as access. Lord responded with some questions on the proposal and have now received a response to these questions. Lord plans to forward a new proposal to Over Lake in the near future.

Page 2

Lord may need USEPA assistance to obtain access if this matter is not resolved before USEPA approves the RD. As noted, Lord has previously submitted a request for extension of the existing access proposal to Over Lake.

A Public Meeting will be held ; Lord and their consultant, Eckenfelder, Inc. will be requested to participate. Details will follow.

Yours truly,

LORD CORPORATION
